Certifications

Web Development
Corvit System | May 2023

Successfully completed an intensive Web Development course at Corvit Systems, covering both front-end and back-end technologies. Gained proficiency in HTML, CSS, JavaScript, and popular frameworks such as Django. Developed practical skills through hands-on projects.

Hamza Shahzad
Full-Stack Web Developer

Proficient in Django and Python hosting services, with a strong track record of delivering high-quality web applications. Skilled in managing the entire software development lifecycle, from initial requirements gathering to deployment and maintenance. Collaborative team player dedicated to achieving project objectives and driving continuous improvement. Strong problem-solving abilities and attention to detail, with a focus on optimizing performance and user experience. Actively keeping up-to-date with the latest industry trends and best practices to ensure the delivery of cutting-edge solutions.

Experience

2023
DevXhouse I Pakistan
Python Web Developer

- Developed and maintained web applications using Django
- Implemented RESTful APIs and integrated third-party services to enhance application functionality
- Implemented responsive and user-friendly web interfaces using HTML, CSS, and JavaScript to enhance user experience and engagement
- I worked closely with backend developers to integrate APIs and ensure seamless data flow

Projects

Company Portfolio
A dynamic company portfolio website to highlight services, projects, and team profiles, significantly improving the company's online visibility and client interaction.

Grammer checker
Implemented a grammar checker tool to enhance the accuracy and quality of written content, improving overall communication and reducing errors

Social media video downloader
Enables users to download videos from various social media platforms, ensuring a seamless and user-friendly experience

Accomplishments

Academic Excellence Award
Superior College | November 2024

Received for achieving the highest marks in class Recognized for outstanding academic performance, demonstrating a strong commitment to excellence and a high level of understanding in all subjects. This award highlights my dedication, hard work, and ability to excel in a competitive academic environment

Interests

Passionate about the transformative potential of Machine Learning and Automation. Enthusiastically exploring how advanced algorithms and automated systems can optimize processes, enhance decision-making, and drive innovation. Continuously learning about the latest developments in AI, neural networks, and robotic process automation to apply these technologies in real-world applications and contribute to cutting-edge advancements in the field.
